

# M60A3

**EN**

The M-60 was introduced in the first years of '60s in the United States Army. It was developed and designed to be the evolution of the famous tanks M-47 and M-48 Patton series. The M-60 became the most important MBT (Main Battle Tank) of the U.S. Army during the Cold War years. It was produced, until 1983, by the American company Chrysler in 15.000 units and it was adopted, in several versions, by the armed forces of numerous countries all over the World. The main armament, installed in the turret, was the 105 mm. M68 gun. The M-60 was characterized by its big size and by the adoption of the powerful V12 turbodiesel engine able to release a good operating performance and a good speed on-road and off-road. It was deployed in a lot of conflicts and operational scenarios. In 1976 the new upgraded M60A3 version was developed and it was characterized by several improvement able to enhance the operation effectiveness. The armor protection for the turret was increased and a new gun mantle was designed. Great improvement in the adoption of modern electronic and fire control systems on board.

**IT**

Il carro armato M60 entrò in servizio nei primi anni sessanta nell'esercito Americano. Venne sviluppato e progettato per essere l'evoluzione del celebre M-47 e del successivo M-48 Patton. L'M-60 divenne il principale MBT (Main Battle Tank) dell'U.S. Army durante gli anni della Guerra Fredda. Venne prodotto sino al 1983 dalla Americana Chrysler in oltre 15.000 esemplari e venne impiegato, in diverse versioni, dalle forze armate di numerosi Paesi in tutto il mondo. Il suo armamento principale era costituito da un cannone M68 da 105 mm. Installato nella torretta. Si caratterizzava per le grosse dimensioni e per l'adozione di un potente motore V12 turbo diesel in grado di garantire buone prestazioni operative ed una discreta velocità in ogni condizione di impiego. Ha partecipato a numerosi conflitti ed è stato impiegato in diversi scenari operativi. Nel 1976 venne realizzata la versione M60A3 che racchiudeva diversi miglioramenti in grado di aumentarne l'efficacia operativa. Lo spessore della blindatura della torretta venne aumentato e venne realizzata una nuova protezione per il cannone. Significativi i miglioramenti nell'elettronica di bordo e nel sistema di puntamento del tiro.

**DE**

Der Kampfpanzer M60 wurde in den frühen 60er Jahren in die amerikanische Armee eingeführt. Er wurde als Evolution des berühmten M-47 und des späteren M-48 Patton entwickelt und konstruiert. Der M60 wurde in der Zeit des Kalten Krieges zum wichtigsten Kampfpanzer (Main Battle Tank) der US-Armee. Er wurde bis 1983 von der US-Firma Chrysler in mehr als 15.000 Exemplaren produziert und wurde in verschiedenen Versionen von den Streitkräften zahlreicher Länder rund um die Welt eingesetzt. Seine Hauptwaffe war eine am Turm montierte 105-mm-M68-Kanone. Er zeichnete sich durch seine bedeutende Größe und seinen leistungsstarken V12-Turbodieselmotor aus, der unter allen Einsatzbedingungen eine gute Betriebsleistung und eine angemessene Geschwindigkeit gewährleisten konnte. Er hat an zahlreichen Kriegen teilgenommen und wurde in verschiedenen Einsatzgebieten eingesetzt. Im Jahr 1976 wurde die Version M60A3 hergestellt, die einige Verbesserungen zur Steigerung der operativen Leistungsfähigkeit enthielt. Der Turm wurde mit einer dickeren Panzerung umgeben und für die Kanone wurde ein neuer Schutz gebaut. Deutliche Verbesserungen der Bordelektronik und des Schießzielsystems.

**EN** ATTENTION - Useful advice!

Study the instructions carefully prior to assembly. Remove parts from frame with a sharp knife or a pair of scissor and trim away excess plastic. Do not pull off parts. Assemble the parts in numerical sequence. Use plastic cement ONLY and use cement sparingly to avoid damaging the model. These letters (A - B - C...) indicate on which frame the parts will be found. Paint small parts before detaching them from frame. Remove paint where parts are to be cemented. Crossed out parts must not be used. Before cementing together chromium plated parts remove the plating on those sides to be cemented.

**IT** ATTENZIONE - Consigli utili!

Prima di iniziare il montaggio studiare attentamente il disegno. Staccare con molta cura i pezzi dalle stampate, usando un taglia-balsa oppure un paio di forbici e togliere con una pincola lima o con carta vetro fine eventuali sbavature. Mai staccare i pezzi con le mani. Montarli seguendo delle numerazione delle tavole. Eliminare dalla stampata il numero del pezzo appena montato facendogli sopra una croce. Usare solo colla per polistirolo. Le lettere (A - B - C...) al lati dei numeri indicano la stampata ove si trova il pezzo da montare. I pezzi sbarrati da una croce non sono da utilizzare. Le parti cromate vanno accuratamente raschiare nei punti in cui dovranno essere incollate.

**DE** ACHTUNG - Ein nützlicher Rat!

Vor der Montage die Zeichnung aufmerksam studieren. Die einzelnen Montageteile mit einem Messer oder einer Schere vom Spritzguss entfernen. Eventuelle Grate werden mit einer Klinge oder feinem Schmiegelpapier beseitigt. Keinesfalls die Montageteile mit den Händen entfernen. Bei der Montage der Tafelnummernfolge folgen. Bitte nur Plastikklebstoff verwenden. Die Buchstaben (A - B - C...) neben den Nummern zeigen auf welchem Spritzguss der zu montierende Teil zu finden ist. Die mit einem Kreuz markierten Teile sind nicht zu verwenden. Bei den verchromten Teilen muss man an den stellen, die aneinandergeklebt werden, den chrom abschmieren.

**FR** ATTENTION - Conseils utiles!

Avant de commencer le montage, étudier attentivement le dessin. Détailler avec beaucoup de soin les morceaux des moules en usant un massicot ou bien un païr de ciseaux et couper avec une petite lame avec de papier de vitre fin ébarbages éventuels. Jamais détacher les morceaux avec les mains. Monter les en suivant l'ordre de la numérotation des tables. Eliminer de la moule le numéro de la pièce qui vient d'être montée, en le biffant avec une croix. Employer seulement de la colle pour polystyrol. Les lettres (A - B - C...) aux côtés des numéros indiquent la moule où se trouve la pièce à monter. Les pièces marquées par une croix ne sont pas à utiliser. Les parties cromées doivent être soigneusement râclées dans les points où elles devront être collées.

**ES** ATENCION - Consejos útiles!

Estudiar las instrucciones cuidadosamente antes de comenzar el montaje. Separar las piezas de las bandejas con un cuchillo afilado o un par de tijeras y retirar el exceso de plástico o rebada. No arrancar las piezas. Montar las piezas en orden numérico. Utilizar SOLAMENTE pegamento para plástico y en poca cantidad para evitar que se dane el modelo. Las letras (A - B - C...) indican en qué bandeja se encuentran las piezas. Pintar las piezas pequeñas antes de separarlas. De la bandeja. Retirar la pintura de los lugares por donde se deban pegar las piezas.

**RU** ПРЕДУПРЕЖДЕНИЕ - чрезвычайные!

Перед тем, как приступить к сборке, внимательно изучить чертеж. Осторожно отсоединять расщепленные элементы, используя для этого канцелярский нож или пару ножниц, снять неровности с помощью тонкого лезвия или с помощью абразивной бумаги. Не отсоединять элементы руками. Выполнять сборку согласно порядку указанным таблицами, удалить из стопки только что собранную деталь, перечеркнув её. Использовать только для пистолета. Буквы (A - B - C...) на латах номеров указывают на то, где находятся детали, которые нужно склеивать. Удалить хромированные детали не использую.

Istruzioni per l'applicazione delle decalcomanie. Ritagliare le decalcomanie occorrenti dal foglio, immergerle in un bicchiere di acqua pulita per circa 10-20', metterle in posizione sul modello e farle scivolare dalla carta: per una migliore aderenza comprimerle con una pezzuola pulita.

Direzione per applicare i decal: tagliate le decalcomanie richieste dal foglio, immergete nel bicchiere d'acqua pulita per circa 10-20', posizionatele sul modello e fattele scivolare dalla carta: per una migliore adesione, premetele con un panno pulito.

Påsætning af dekal: klip ut den del av dekal som skal användas från sheeten: sätt dekalen på plats på modellen och låt den sätta glida av pappret. För att den skall sitta ordentligt, tryck till med en torr disk.

Anweisungen für Abziehbilder-Anbringung: Die benötigten Abziehbilder vom Blatt abschneiden, in ein Glas reines Wasser für etwa 10-20' tauchen, auf das Modell legen und dann vom Papierbogen abnehmen. Um eine bessere Haftung zu erzielen, die Abziehbilder mit einem reinen Tuch andrücken.

Instruction pour l'application des décalcomanies: Couper les décalcomanies choisies et les plonger environ 10-20' dans un peu d'eau propre. Les placer sur le modèle en les faisant glisser de leur feuille et presser avec un morceau de chiffon pour éliminer les bulles d'air.

Istrucciones para la aplicación de las calcomanías: cortar las requeridas, sumergirlas en un recipiente de agua limpia durante 10-20', colocar las calcomanías sobre el modelo, haciéndolas deslizar sobre el papel. Para una mejor adherencia, presionarlas con un trapo limpio.

Transfers: knip het benodigde deel uit, dempelt en ca. 10-20' water, oudt het transfer tegen het model en schuif het vanaf het papier op zijn plaats. Met een schoon doekje aandrukken.

Указания по применению декалей: Отрежьте нужную вам часть декалей от общего листа, поместите ее на 1/2 м-20' в чистую воду, затем, выбрав необходимое место на модели, переведите туда изображение, сдавнв его с бумагой основы. Для лучшего прилегания промажьте декаль чистой тряпкой.

カール使用法: 直角から、それぞれのマークを切り取ります。ぬるま湯に20秒くらいかけて、引き上げます。マークを下へらすようにしてお絃からとり、適度の位置にはめてください。やわらかな布でマーク上を押して気泡を取ってください。マークには、かれこれ手をふれられないでください。
